

Retrofit Dual-Layer Microfiltration Gutter Protection for 5" Gutters

PRODUCT

- Product for existing rain gutters
- Protects from debris, snow and ice
- Sturdy weatherproof structure
- Prevents leaks
- Lifetime clog-free warranty
- Package contains:
 - 7.5' (2.29 m) x 24 pcs = 180' (54.86 m)
 - 12 trims for corners (see description below)

TOP-LAYER ALUMINUM

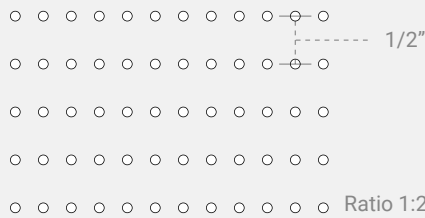

- Colour: Black
- Grade: 3105 H24
- Thickness: 0.0175" (including finish)

BOTTOM-LAYER ALUMINUM

- Colour: Black
- Grade: 3105 H24
- Thickness: 0.014" (including finish)

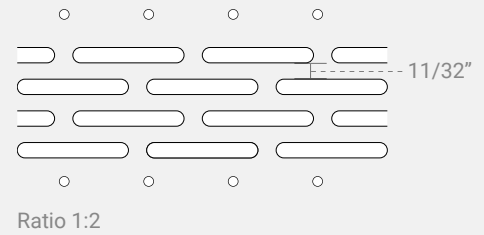

TOP-LAYER PERFORATIONS

- 7/64" (2.8 mm) in diameter
- Drains 40.6" (1031 mm) of water per hour per linear foot
- Block large debris from entering
- Offers the perfect balance between maximum drainage and debris protection

BOTTOM-LAYER PERFORATIONS

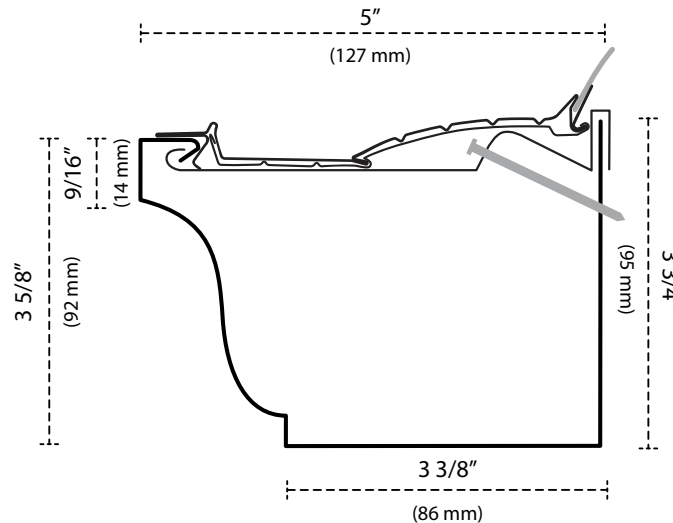

- 1.1584" (29.426 mm) by 0.160" (4.06 mm)
- Surface tension increases drainage
- Block access to fine debris

Tolerances

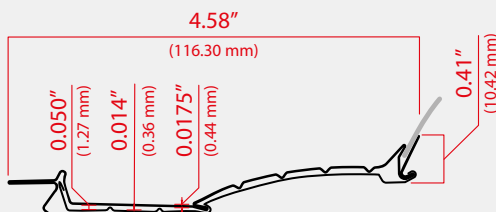

x.xxx" = +/- 0.005" (0.127 mm)
x.xxxx" = +/- 0.0005" (0.0127 mm)

5" GUTTER PROFILE

This product is protected by a number of patents.

PROFILE

TRIMS FOR CORNERS

- Corner trims securely connect sections and seal joints to block water and debris.

FLEXSEAL™ TECHNOLOGY AND QUICKSTRIP™ TECHNOLOGY

- Peel-away strips allow fast, precise on-site adjustment for a flawless seal on any roofline.
- Resists UV rays, mold, and temperature fluctuations.
- Watertight protection keeps the back of the gutter sealed and secure.
