**OUTSTANDING  
GUTTER SOLUTIONS**

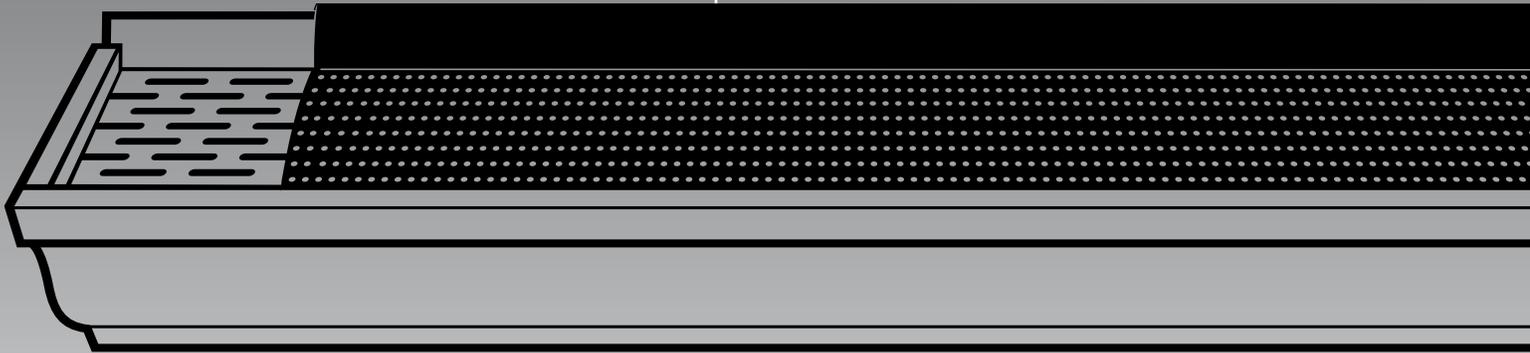

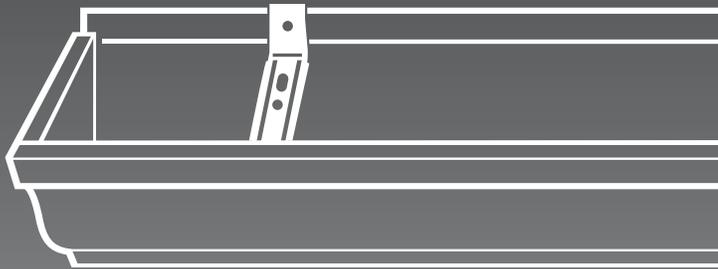

# FASTENING SYSTEMS OVER THE YEARS

**1980**

**SPIKES AND FERRULES**

**1990**  
**SPACED HANGERS**

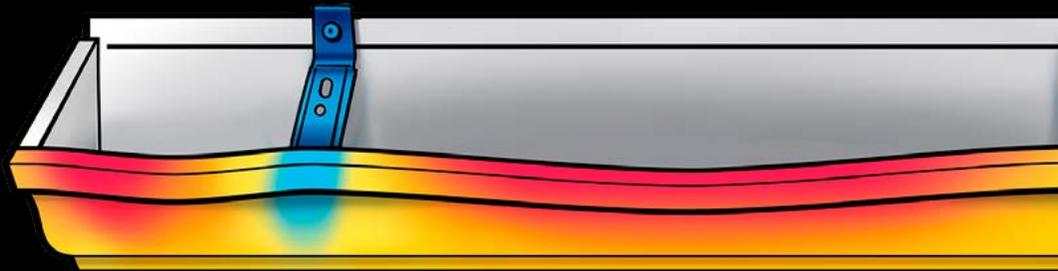

**TODAY**

**CONTINUOUS HANGERS™**

The Continuous Hanger™ is the only fastening system that ensures gutters remain strong and rigid along their entire length. It eliminates the weaknesses that other systems generate between nails and spaced hangers.

# CONTINUOUS HANGERS™ : EXPLAINED

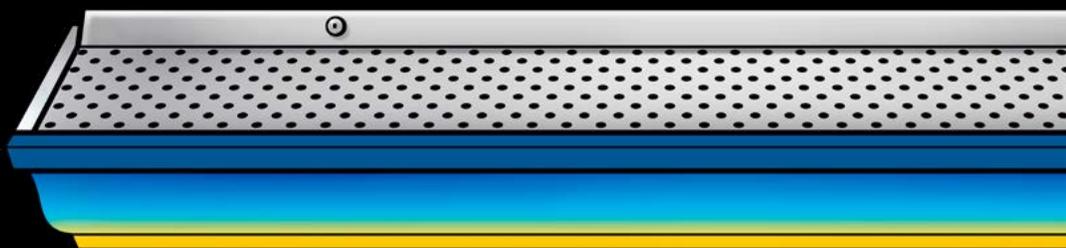

Rain gutters are commonly installed with spaced hangers that cause weak spots on the gutter between each hanger.

To avoid weak spots, hundreds of hangers would need to be added, but this is not a very efficient practice.

With a **continuous hanger™**, the rain gutters are reinforced along their entire length.

# COMPLICATIONS RELATED TO GUTTERS

## **DEAD BIRDS AND PESTS**

Nobody likes these bad surprises when cleaning their gutters.

## **WARPED RAIN GUTTERS**

The gutter becomes deformed under the weight of snow and ice.

## **ROTTED FASCIA BOARDS**

Rotted fascia can no longer support the weight of the gutters.

# IN NORTH AMERICA, 600,000 FALLS FROM LADDERS CAUSE 300 DEATHS ON AVERAGE PER YEAR

## CONIFER NEEDLES

No doubt the worst enemy of your gutters and downspouts.

## GRAVEL AND SHINGLES

It is common to have to use a shovel to remove big debris.

## BASEBALL

Risking your life on a ladder to get the kid's toys, a classic.

# THE ALU-REX PRODUCT HANGERS AT A GLANCE

## INSTALLATION OF NEW GUTTERS

**T-Rex®** is a continuous fastening system for gutters. It mounts rain gutters solidly on houses, making them much sturdier and longer-lasting than those mounted with spikes and hangers spaced at intervals.

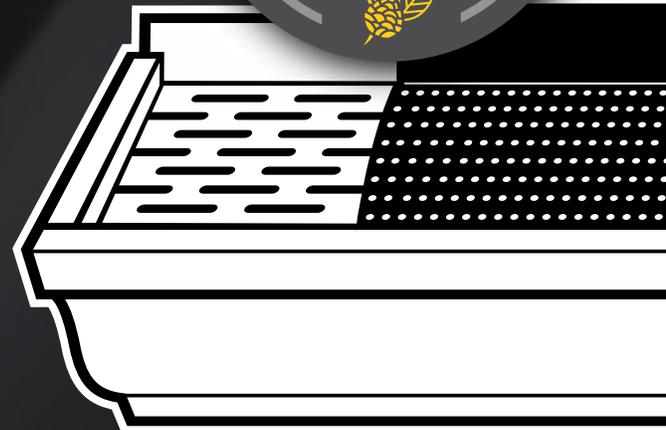

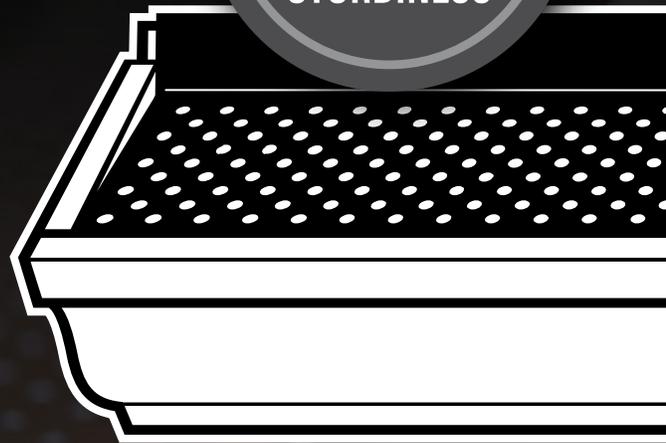

**Hover™** is the improved continuous fastening system that allows to suspend gutters instead of screwing them through using the patented Floating™ technology. It is compatible with hemmed back gutters.

## COMPLETE INSTALLATION SOLUTIONS FOR NEW GUTTERS

**DoublePro®** is a patented dual-action gutter protection system. This Continuous Hanger™ with built-in guard is designed to stand up to the worst weather conditions in North America and keep your gutter free of debris and ice year after year.

**HoverPro™** is the improved continuous fastening system with built-in guard that allows to suspend gutters instead of screwing them through using the patented Floating™ technology. It is compatible with hemmed back gutters.

Reinforced from end to end. There are no weak points. It can even hold the weight of three people.

Rain gutters flow freely for perfect drainage year-round.

## SEE THE BENEFITS

Acts as uv shade protecting the sealant from direct sunlight and eliminating corner leaks.

Keeps leaves and debris out of rain gutters.

t rex®

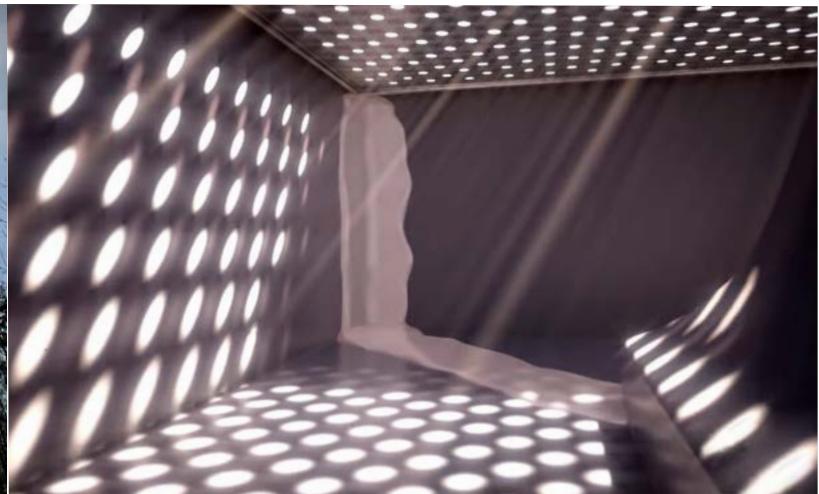

# CONTINUOUS HANGER™ FOR RAIN GUTTERS

Unparalleled Strength

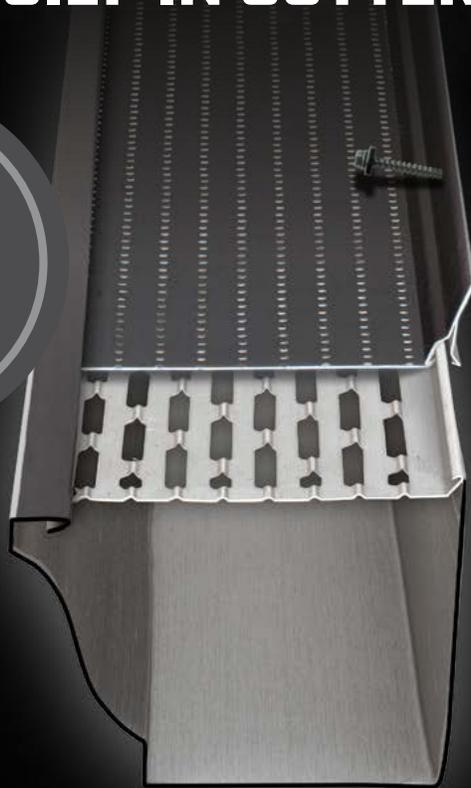

UV Protection

With t rex®, your rain gutters are reinforced from end to end. There are no weak points. It can even hold the weight of three people.

Higher UV-ray filtration extends the elastic properties of the gutter sealant and reduces drying, cracking and leakage at each corner of the rainwater management system.

# double pro<sup>®</sup> CONTINUOUS HANGER<sup>™</sup> WITH BUILT-IN GUTTER GUARD

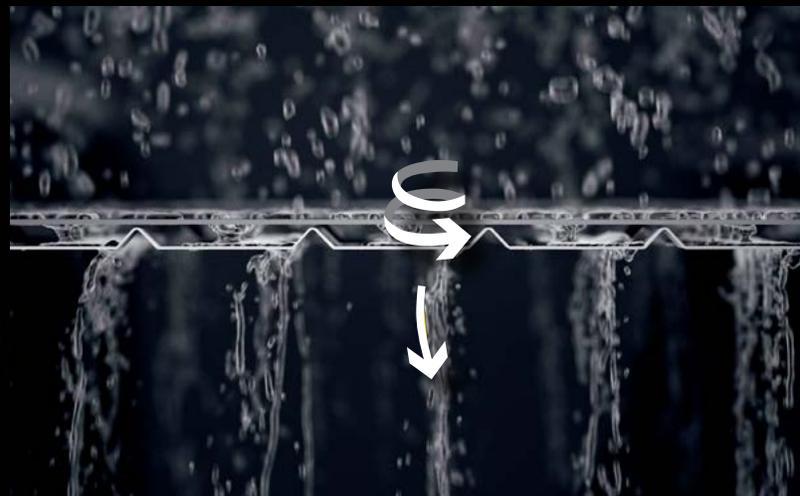

**eclipse<sup>™</sup>** TECHNOLOGY

**vortex<sup>™</sup>** TECHNOLOGY

The offset holes of the **eclipse<sup>™</sup>** TECHNOLOGY make it the perfect filter, allowing water to drain freely while blocking pine needles and leaves without ever getting clogged.

With the **vortex<sup>™</sup>** TECHNOLOGY, the suction created by the two membranes makes it possible to drain three times more water than recorded in the heaviest storms.

# hover.

---

## The only hanger that let your gutters move.

**Why should gutters move?**

**To prevent water from seeping into the house**

Like many types of building materials installed outdoors for an extended period of time, gutters are prone to thermal contraction and expansion likely to compromise their watertightness, including with:

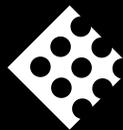

# LEADING THE WAY TOWARD INNOVATION

Our patents and trademarks stand as evidence of our unwavering dedication to excellence and innovation. Each one reflects extensive research, development, and refinement, showcasing our relentless pursuit of groundbreaking solutions and ideas. They signify our commitment to pushing boundaries and setting new industry standards.
